

how to: Add Sub-script

If you would like to add sub-script to your text, you will need to go into the HTML code.

Method for sub-script:

1. Go to Panel View
2. Click on panel view to open the HTML code. You should see something like this:

A screenshot of a source code editor window. The title bar reads "Source Code". The text area contains the HTML code: `<P>How to: Add sub-script</P>`. The editor has a vertical scrollbar on the right side.

3. Find the content you want to add sub-script to in the HTML code.
4. Apply the following code after:

```
<SUB>***</SUB>
```

Where *** if your text you wish to be sub-script

If you would like to adjust the size of the sub-script text use the following code:

```
<SUB style="font:+px;">***</SUB>
```

Where + is your font size.
